

DESCRIPTION

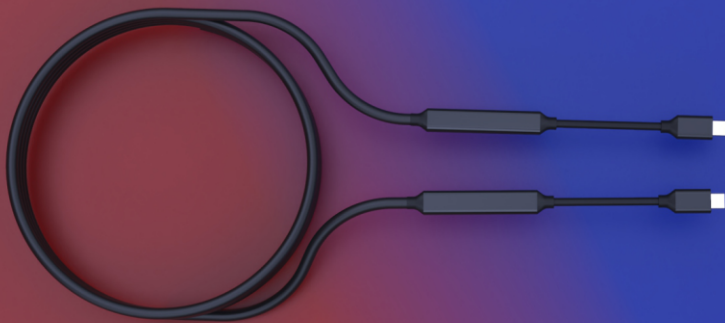

nT01BG25 is a USB-C to USB-C M/M Full Feature Bi-directional active cable with Re-timer chipset for enhancing signal (video/data/power) up to 5 meters for video part, it is compatible with DP1.4 with theoretical resolution up to 8K/60HZ, For data part, it is compatible with USB3.2 Gen 2 with max 10Gbps data transmission, Besides, it is capable of delivering max 60W (20A/3A) PD charging. This cable combines video, data and power functions for connecting Type-C PC/laptop to Type-C display/VR/Hard drive/dock/PD charger, Either Type-C male can be host or device side as this cable is bi-directional. it can work on all DP Alt mode supported host, applications VR, MACHINE VISION,VIDEO CONFERENCE CAMERA AND SPEAKERS, PRINTERS, SCANNERS

Specification

Host side	:	USB C port
Device side	:	USB C port
Cable	:	Copper
Version	:	USB 3.2
Speed	:	10 Gbps
PD Charging	:	Max 20V /3A
Backward compatible	:	1/3.0/2.0
Bidirectional	:	Yes
Available Lengths	:	5m
Max video Resolutions	:	8K/60 Hz

Gold Pated
Connector

5 Gbps
Speed
